

To whom it may concern at FCC-

This letter is in opposition of the NAB's petition 04-160. I subscribe to satellite radio because there is not a variety of music choices locally. Part of this programming difference includes the traffic and weather channels. I pay monthly for these services, and it should not be up to the NAB or any other organization what information is available to me using this service.

Please reject petition 04-160.

Respectfully Submitted,

Kip Dennis
